PROJECTS EXPERIENCE

Arachnophobia Biofeedback Project, HPU Minds

Aug. 2024 – Present

- Coordinated several teams in achieving different objectives in developing the project
- Wrote modular code for easy future integration of additional functionality
- Developed 2 Arduino Libraries, one for making sense of raw GSR Sensor data, and one for protocols to communicate between the Arduino and an Unreal Engine plugin utilizing the Serial Buffer
- Consistently guided the team in a productive direction

Eagle Scout Service Project, Scouting America (Formerly Boy Scouts of America) Troop 471 Aug. 2019 – July 2024

- Planned, fundraised, and led a service project for the betterment of the community, specifically to help a local church host events and outreach
- Drew up concise and easy to understand plans for volunteer workers
- Managed and led construction effectively in a noisy and hectic work environment

Church Outreach and Video Streaming, Old Donation Episcopal Church

June 2020 – July 2024

- Volunteered streaming church services bi-weekly
- Managed and coordinated video and audio feeds through an external program in real time
- Controlled and orchestrated multiple video devices simultaneously to provide smooth visuals to remote worshipers
